

# **RFK, Jr. Reveals That DPT Vaccine Greatly Increased Death Rate In African Children**

Robert F. Kennedy, Jr., referenced a study last week on national television, showing that African children had a five to ten-fold increase in mortality after receiving the DTP (diphtheria, tetanus and pertussis) vaccine. The study examined vaccinated vs. unvaccinated children in Guinea Bissau, West Africa, from the late 1970s to the early 1980s. When children were given the DTP vaccine by itself, it increased the death rate 10-fold (1,000 %) over children who were unvaccinated. By the early 1980s, a cascade of lawsuits filed across the US on behalf of vaccine-injured children threatened to shut down production of the DTP and other vaccines. That was avoided in 1986 when the US Congress, influenced by generous campaign donations, granted legal immunity for vaccine makers. –GEG

**For many years, public health advocates have vainly urged the CDC and WHO to conduct studies comparing vaccinated vs. unvaccinated populations to measure overall health outcomes.**

Now a team of Scandinavian scientists has conducted such a [study](#) and the results are alarming. That study, funded in part by the Danish government and lead by Dr. Soren Wengel Mogensen, was published in January in EBioMedicine. Mogensen and his team of scientists found that African children

inoculated with the DTP (diphtheria, tetanus and pertussis) vaccine, during the early 1980s had a 5-10 times greater mortality than their unvaccinated peers.

The scientists term the study a “natural experiment” since a birthday-based vaccination system employed for the [Bandim Health Project](#) (BHP) in Guinea Bissau, West Africa had the effect of creating a vaccinated cohort and a similarly situated unvaccinated control group. In the time period covered by this study, Guinea-Bissau had 50% child mortality rates for children up to age 5. Starting in 1978, BHP health care workers contacted pregnant mothers and encouraged them to visit infant weighing sessions provided by a BHP team every three months after their child’s birth. Beginning in 1981, BHP offered vaccinations at the weighing sessions. Since the DTP vaccine and OPV (oral polio) immunizations were offered only to children who were at least three months of age at the weighing sessions, the children’s random birthdays allowed for analysis of deaths between 3 and 5 months of age depending on vaccination status. So, for example, a child born on January 1<sup>st</sup> and weighed on April 1<sup>st</sup> would be vaccinated, but a child born on February 1<sup>st</sup> would not be vaccinated until their following visit at age 5 months on July 1<sup>st</sup>.

In the primary analysis, DTP-vaccinated infants experienced mortalities five times greater than DTP-unvaccinated infants. Mortalities to vaccinated girls were 9.98 times those among females in the unvaccinated control group, while mortalities to vaccinated boys were 3.93 times the controls. Oddly, the scientists found that children receiving the oral polio vaccine simultaneously with DTP fared much better than children who did not. The OPV vaccine appeared to modify the negative effect of the DTP vaccine, reducing mortalities to 3.52 times those experienced among the control group. Overall, mortalities among vaccinated children were 10 times the control group when children received only the DTP.

## **Fox Newscaster Sean Hannity Says That 'Liberal Fascists' Are Trying to Silence Conservatives, Especially Trump Supporters**

Sean Hannity at Fox News says free speech is at stake as Liberal Fascists are targeting conservative media to shut them down through any means necessary. As an example, he says that an unnamed woman (later identified as Debbie Schlussel) is trying to smear him with charges of improper sexual overtures to her. He denies the charges and announced that he will fight back with every legal means to clear his reputation and stop the censorship. -GEG

Debbie Schlussel, a former Fox News contributor, added her name to the list of women claiming they were sexually harassed by Fox News personalities. She accused Sean Hannity of inviting her to his hotel room and then refusing to have her back on his show after she rejected him. After Hannity vowed to unleash his legal team to clear his name, she softened her allegation by saying that she was not 'sexually harassed' but

stood firm on her story about the hotel-room invitation and no more appearances on the Hannity Show.. –GEG

[Debbie Schlusssel](#), the former Fox News frequent face who just took to radio airwaves to say she was sexually harassed by [Sean Hannity](#), has now retracted that claim.

Dang it, [Debbie](#). This is why women aren't believed. Because of people like [Schlusssel](#) who accuse, accuse, accuse – and then, faced with legal backlash, deny, deny, deny.

[Schlusssel](#) ought to be ashamed of herself.

This is how it all went down: Friday, on local radio, [Schlusssel](#) added herself to the list of women who say they've been sexually harassed by Fox News staffers, or who've settled claims of sexual harassment against Fox News staffers. [Schlusssel](#) specifically said [Hannity](#) invited her to his hotel room, she turned him down, and she wasn't invited back on his show.

"He tried to get me to go back to the hotel after the show after he and his executive producer Bill Shine treated me horribly," she said on that show.

[Hannity](#) hit back hard, vowing to LawNews in a statement that her version of events was false – a "complete fabrication" – and that [Schlusssel](#) was a "serial harasser" and liar. He also vowed to unleash the power of his legal team to clear his name.

# Syria: Former Israeli Defense Minister Confirms Israeli Collaboration With ISIS

Bogie Yaalon served as Defense Minister in the current Israeli government in May 2016. Describing the military conflict between Syria and Israel, Yaalon says. "On most occasions, firing comes from regions under the control of the (Assad) regime. But, once, the firing came from ISIS positions – and it immediately apologized." [Allies apologize when they accidentally cause harm to their partner.] Israel's collaboration with al-Nusra is well documented, but this is the first time an Israeli official has confirmed the non-hostile relationship with ISIS. –GEG

# Migrants Overtaking Italy Are Not Refugees Of War But Males Seeking Economic Benefits

Italy: Only 2.65%, of the recorded 181,436 migrants that crossed the Mediterranean Sea into Italy during 2016 were recognized as genuine refugees and awarded asylum from war. The rest were males (no women or children) primarily from West Africa who were seeking economic benefits. Half of the them never even requested asylum but simply stayed on as illegal immigrants, disappearing into the underground, criminal culture. Italians have had their property seized by the government and turned into migrant camps. The illegal migration has been organized by NGOs (non-governmental organizations) and leftist groups. -GEG

# Indiana State Professor Committed Fake 'Hate Crime' Against Himself To Gain Sympathy

Azhar Hussain, A Muslim professor of aviation technology at Indiana State University, lied about receiving threatening anti-Muslim emails and being attacked on campus. He has been arrested and charged with a felony for obstruction of justice and misdemeanor harassment. [Have you noticed lately how many of the wacko actors on the so-called social-justice stage are teachers and professors? Still want to send your kids to college?] –GEG

<https://www.youtube.com/watch?v=iQNxHMHxUMI>

A Muslim professor at Indiana State University lied about receiving threatening emails and being attacked on campus, police say.

Azhar Hussain, 56, assistant professor of aviation technology, was arrested on Friday and charged with felony charge of obstruction of justice and misdemeanor harassment, [according to Terre Haute's Tribune-Star](#).

On March 8, Hussain claimed to have received threatening emails containing anti-Muslim sentiments. And on March 24, Hussain claimed that he was attacked from behind while entering his campus office.

But the professor fabricated all of the incidents, police say.

“Based upon the investigation, it is our belief that Hussain was trying to gain sympathy by becoming a victim of anti-Muslim threats which he had created himself,” Indiana State University Police Chief Joseph Newport said Friday. “It is extremely unfortunate that this situation caused undue concern

on other members of the ISU community.”
