

The BBC Omitted Eyewitness Testimony Against Three Muslim Women Shouting 'Allah' as They Stabbed a Woman

London: The BBC was caught editing out part of an interview in which an eyewitness says three female Muslim attackers shouted 'Allah' before stabbing a woman. Mainstream media is committed to the narrative that terrorism is not linked to Islam. -GEG

The BBC has been caught-red-handed censoring part of an interview where an eyewitness says Muslim attackers shouted "Allah" before they stabbed a woman in London.

Just like CNN got caught staging a Muslim anti-terror protest, this is yet more evidence of the establishment trying to frame the narrative that terrorism has 'nothing to do with Islam'.
