

Muslim Businessman Predicts White Race in Australia Will Become Extinct in 40 Years

Australia: Mohamed El Mouelhy, the Muslim president of the Halal Certification Authority, reacted to the news that sperm counts are falling in men in the West and he predicted that Australia's white race will become extinct within 40 years. He says that Australian men are too busy smoking, drinking beer, and taking drugs to procreate. He wrote on Facebook that Australian women need Muslim men to 'fertilise them' and 'keep them surrounded by Muslim babies'. -GEG
