

Germany Introduces Women's Pants with Safety Alarms to Thwart Migrant Sex Attacks

Germany, a country with a population of 82-million, welcomed one-million migrants and unvetted "refugees" in 2015, and another 280,000 in 2016. In July, 2017, German Chancellor Angela Merkel shut down the idea of creating upper limits on refugees entering Germany. During this time, rape and sexual assault have risen dramatically. Kentucky School Shooting Leaves 2 Students Dead, 16 More Injured

Benton, Kentucky: A 15-year-old, male student was arrested on murder charges after allegedly opening fire in the Marshall County High School, killing two students and wounding 14 others. The motive is unknown at this time. The boy illegally obtained the gun and he illegally used it in a gun-free zone. [Let's hear it for gun-control laws.] -GEG

Another high school has turned into a scene of carnage, this time in western Kentucky.

Sixteen people were wounded, two of them fatally, after a shooter opened fire Tuesday morning at Marshall County High School, authorities said. Four others sustained various injuries.

A 15-year-old male student was arrested at the scene, Gov. Matt Bevin said. On Wednesday he was charged with two counts

of murder and 12 counts of first degree assault, Marshall County Assistant Attorney Jason Darnall told reporters.

After the boy has a probable cause hearing and a detention hearing in the next two days, prosecutors will start the process of charging him as an adult, Darnall said.

A grand jury will meet on February 13, and the charges could change, Darnall said.

Authorities identified the slain victims as Bailey Holt and Preston Cope, both 15. Bailey died at the high school, and Preston died at Vanderbilt University Medical Center in Nashville, according to Kentucky State Police Commissioner Richard W. Sanders.

Bailey Holt and Preston Cope, both 15, were killed in the shooting.

Sanders said the suspect, armed with a handgun, walked into the school at 8:57 a.m. ET and started shooting. The first 911 call came two minutes later.

The victims ranged from 14 to 18, state police said. Fourteen were male and six female.

'Mom, there's been a shooting'

Some parents said their children told them the shooting started in the commons area before class, CNN affiliate WSMV reported.

Missy Hufford said her son, Ethan, 15, ran into the gymnasium and out of the building through a side door. Then he called and asked her to pick him up, she said.

"I know when he called me, he said, 'Mom, there's been a shooting.' And I asked him if he was OK, and he said, 'I'm running,' " WSMV reported.

Misty Green said her daughter, Morgan, was in the commons area and "heard the 'pop, pop, pop' and initially got down, and

then just realized what was going on, so they took out running out of the building as fast as they could.”

“And teachers were grabbing kids up and helping them get into safe places. And helping them get outside and get to a safe location,” Green told WSMV.

Switzerland: Soros Deploys Antifa at Davos World Economic Forum

Antifa has arrived in the City of Davos at the same time The World Economic Forum is being held there. The purpose is to make a public statement to the attendees of the Forum. Antifa is presenting itself as ‘grassroots’ protesters against global warming, Donald Trump, and nationalism. The irony is that this mission statement is in perfect alignment with the mantra of the globalist elite attending the Forum. There should be no surprise in this inasmuch as the Communist Left and the allegedly anti-Communist Right are merely variants of the same ideology called collectivism. They are brothers under the skin. The banners and slogans displayed by Antifa in Davos make this fact crystal clear.

This article concludes with a quote of mine, written in 1969: “If those who seek world dominion can stimulate leftist mobs into violent confrontation with local law enforcement, and

also provide exhaustive news coverage so that the entire nation can see and tremble, then the peaceful and freedom-loving majority can be programmed to accept a vast expansion of government powers and even a national police force offered supposedly to end the violence.” I was surprised and delighted to see those words appear again after all these years. -GEG

An Antifa gathering house is outside the Davos conference, which underscores the close ties between the elites and anti-Trump protestors.

The prestigious city of Davos, Switzerland, is a strange place to find an Antifa gathering, especially given the waist-deep snow, but Antifa is there to protest the arrival of President Trump – and to serve as worthy servants to Davos insiders, who desperately need the appearance of “grassroots” resistance to nationalism.

And sure enough, Antifa is headquartered at a street intersection near the entrance to Davos with a lot of media traffic – perfect for easy photo opportunities for exhausted journalists.

It’s a large building with numerous balconies – and yet Antifa seems to have complete use of it. Did a Soros group book the building?

“They have the good fortune of having access to all these balconies for a series of very provocative banners,” reported Infowars correspondent Dan Lyman.

The banners include statements such as “Global Warming with Fire and Fury,” “Climate Change Kills,” in addition to pro-open borders messages and even an image of Trump portrayed as a Mototov cocktail.

It’s funny how the Antifa banners coincide so perfectly with the establishment’s talking points at Davos, instead of the

usual communist-tinged rhetoric the group espouses to “fight the bourgeoisie.”

“They do agree with many of the radical environmentalists here in attendance,” Lyman points out. “And on the side of the house is the very-telling Antifa flag.”

This “grassroots” Antifa protest is undoubtedly steered by the establishment, just like the Antifa-linked groups the *Alliance for Global Justice* and *Resist Fascism*, both of which receive funding from Soros – and provoked violence at past protests by claiming vandalism and arson were “not violence.”

“If those who seek world dominion can stimulate leftist mobs into violent confrontation with local law enforcement, and also provide exhaustive news coverage so that the entire nation can see and tremble, then the peaceful and freedom-loving majority can be programmed to accept a vast expansion of government powers and even a national police force offered supposedly to end the violence,” G. Edward Griffin warned in his 1969 documentary the *Capitalist Conspiracy*.

Weird Link Between Las Vegas

Shooter and Bohemian Grove

Last week, Sheriff Joe Lombardo reported that law enforcement recovered hundreds of photos of child pornography from the computer of Stephen Paddock, the man said to be the Las Vegas shooter. Several prostitutes who knew Paddock came forward after the shooting and reported the violent nature of his sexual deviancy. Investigative reporter, Jake Morphonios, speculates that the FBI knew of Paddock's sexual issues and may have extorted him to work for the agency in return for not being sent to prison. Stephen's brother, Bruce, was arrested in Los Angeles last October on charges of possessing child pornography. A third brother, Eric, has admitted that he and his brothers were "bad kids" and have criminal secrets.

The Paddock brothers own two homes in northern California that are very close to the edge of Bohemian Grove, a 2,700-acre wooded area used for secret meetings and occult rituals. It has been reported by victims that pedophilia and homosexuality are rampant during these events. One survivor says children have been abused and even killed at Bohemian Grove. [Is it a mere coincidence that three brothers who are deeply involved in child pornography just happen to own two homes near the edge of the Bohemian Grove? If it is not a coincidence, what might the connection be to the FBI and the Las Vegas Shooting? Knowing that government agencies do, indeed, use tactics like those described to coerce people into doing their dirty work, it is not unreasonable to consider these questions. However, we must be aware that, at present, this is still just speculation without conclusive evidence.] -GEG
