

# Democrats: White Christian Women Need Not Apply

The Democratic Party has published a list of desired categories for women in office. The list does not include white or Christian. Here is the order of their preferences: Black women, LGBT women, Muslim women, Disabled women, Jewish women, Latina women, Millennial women, Jewish women (listed twice), AAPI (Asian) women, and More women. The Party says the reason white and Christian are not listed is that these already are well represented. Multi-culturalism is the goal. [Oh, yes. Don't forget that, statistically, these categories predominantly vote Democrat.] -GEG

The image shows a screenshot of a Twitter post from the official account of The Democrats (@TheDemocrats). Below the list is a photograph of a woman holding a sign that says "RESIST RUN WIN". The tweet includes a "Follow" button and a link to the account.
