

# Syria Downed Israeli Jet as Conflict Escalates

written by GEG | February 12, 2018

Israel claims that a base in Syria launched a drone into its territory and it responded by sending an Israeli F-16 aircraft into Syria, which was shot down. In a dramatic escalation, Israel carried out major air raids against Syria on Saturday, including what it says are Iranian military targets. Israel now is preparing for war in the north, along the Syrian border. -GEG
