

Ireland's Prime Minister to Bring in One-Million Migrants. Farewell Ireland.

written by GEG | March 1, 2018

Prime Minister Leo Varadkar, Ireland's first ethnic Indian government minister, is preparing to bring one-million immigrants to the Emerald Isle! Ireland's present population is 4.8 million. The immigrants likely will be Muslims from Africa, the Middle East, Pakistan, and Afghanistan. They will be granted citizenship and subsidized by welfare. They also will be entitled to family reunification (chain migration), which will destroy the culture and the country.
