

# Las Vegas: New Docs Show 12 Resorts Reported Active Shooters and Paddock Had 3 Women in His Room

Las Vegas: Newly revealed records show Las Vegas Metro Police Department (LVMPD) received thousands of emergency calls on the night of the shooting on October 1st reporting other active shooters from numerous locations including: Luxor, Tropicana, New York, New York, MGM, Hooters, Aria, Cosmopolitan, Miracle Mile Shopping, Bellagio, Paris, Caesar's Palace and Harrah's.

Independent citizen journalist Laura Loomer reported that supposed 'lone shooter' Stephen Paddock had three women in his room at the time of the shooting. She says Sheriff Lombardo, who is up for re-election on June 12, intentionally misled the public about the details surrounding the Las Vegas shooting.

Recent documents released regarding the October 1, 2017 Las Vegas Shooting are beginning to shed light on more discrepancies and abnormalities surrounding the official timeline and narrative of the tragedy as originally stated by Sheriff Joe Lombardo and Special Agent Aaron Rouse of the Las Vegas FBI, including documentation that three women were found in the alleged shooter's room.

The most recent batch of documents that were released include witness reports, dispatch logs, and officer reports that recount the events that took place that night and further reveal that Paddock was not alone in his room as was first stated by Sheriff Lombardo.

[Page 26 of the dispatch logs](#) that were released by LVMPD details the moments when the alleged shooter, Stephen Paddock, was located by a security detail at the Mandalay Bay. As actions were taken to assemble a team of officers to apprehend the suspect, a dispatcher shared the name of the alleged shooter located in Room 32-135, along with three females that were reported to be in the room with Mr. Paddock. However, the names of those three women are redacted from the report, while the checkout date listed for the women aligns with Paddock's planned check out date of October 2, 2017. In the log, as seen on page 26, the following was documented as having taken place at 11:02 pm the night of the shooting when police breached Paddock's room. "Units in control room 32 135. Suspect name of K(P)addock, Stephen. There three females in room."

The three women are then listed as #1, #2, and #3, with their check in and check out dates, but their names are redacted from the log. "Checked on (in) on 9-25 scheduled to check out Oct 2nd."

Shocking details such as the one above are found all throughout the nearly 2,000 documents that were released following a court order after The Associated Press and additional media outlets had to sue the LVMPD for the release of this information, information that the public has the right to see, as there are many questions left unanswered due to communication shut down by Sheriff Joe Lombardo of the Las Vegas Metropolitan Police Department.

Other details revealed in the dispatch log include calls that

were made to report multiple gunshot wounded victims hiding in fear for their lives all over the strip. There were panicked calls made from Sundance Helicopter about possible hostages taken.

The details of the LVMPD dispatch log on page 26 specifically reveals that dispatch received information from Mandalay Bay regarding guest names, additional parties in the room, along with check-in and departure dates for Paddock and the three women found in his room, all of which completely contradicts information given to the public in early reports from LVMPD and Sheriff Lombardo. In press conferences held shortly after October 1, Lombardo specifically stated that Paddock checked into his suite at Mandalay Bay on [September 28th, 2017](#) and that he stayed in the room by himself.
