

Supreme Court Justice Anthony Kennedy to Retire, Dems Panic over Roe vs. Wade

`su_note note_color="#efe1a7" text_color="#000000" radius="5"]Justice Anthony Kennedy, 81, will retire at the end of July, after serving more than 30 years on the Supreme Court. Kennedy carried the swing vote and was one of the key architects of same-sex marriage. If President Trump is able to get a Constitutional conservative judge approved, it will reshape the Supreme Court for decades. He will need all Republican senators, including RINOs, to vote for this candidate to reach the 51% majority needed for approval. Abortion could be a key issue; if Roe vs Wade is overturned, authority over abortion would be handed back to the states.[/su_note]`
