

Trump's DOJ Reverses Obama-Era College Affirmative Action Diversity Policy

written by GEG | July 3, 2018

The Trump Administration is rescinding Obama's affirmative action policy that encouraged colleges to consider race during the admissions process. The Supreme Court last ruled that affirmative action was constitutional in 2016, but it could be subject to challenges in the future.

British Medical Schools Turn Away Straight-A Students in Favor of Foreigners

written by GEG | July 3, 2018

British medical schools are turning away straight-A students who are forced to pay for training in Eastern Europe while the National Health Service (NHS) recruits doctors from the third world. A disproportionate amount of the foreign doctors are incompetent.

Carbon Dioxide Greenhouse Gas Emissions Are Falling Under Trump

written by GEG | July 3, 2018

New reports show that even though President Trump is removing Obama's climate policies, greenhouse gas emissions in the US still dropped, due to the falling cost of fracked natural gas. Carbon dioxide emissions in the US fell by 42 million tons in 2017 compared with 2016.

Seattle Police Officers Are Leaving the Department in a 'Mass Exodus'

written by GEG | July 3, 2018

Seattle Police Department has already lost 41 officers this year, as a result of low morale, fear of doing their job due to lack of support from the city council, and orders to ignore some crimes. The police union called the situation “a mass exodus” and said they believe it will have a direct impact on public safety.

Boise, Idaho: 3-Year Old Birthday Girl Dies in Stabbing Spree at Refugee Apartment House

written by GEG | July 3, 2018

Boise, Idaho: Leftists were quick to blame Trump for “anti immigrant rhetoric” following a mass stabbing spree at an apartment home for immigrant refugees. Police arrested Timmy Kinner, 30, of Los Angeles, a black man with a criminal record, who is accused of committing the attack after he was asked to leave the home.

Beware the ‘DNA Vaccine’ that Alters Human Genetics!

written by GEG | July 3, 2018

A new universal flu vaccine to protect from every flu strain in one shot is being developed by the National Institute of Allergy and Infectious Diseases (NIAID). The experimental 'DNA vaccine' that will inject a person with synthesized genes will permanently alter their DNA.
