

# Hillary Clinton Calls for 'Incivility' Toward Republicans While the Washington Post Denies Left-Wing Violence Exists, Despite Video Proof

Hillary Clinton, the most recent Democratic presidential candidate and leader of her party, openly endorsed viciousness against her political opponents. She said that civility can return once Democrats regain some power in the House or Senate. Meanwhile, the Washington Post is trying to peddle fake news by claiming that Republicans have “cast” resistance against President Trump as angry leftist mobs, and that all of their violence and fury are an illusion created by Republicans to win the midterm elections. The Washington Post made the absurd claim in the face of numerous videos of screaming progressives chasing Republicans out of restaurants, Congressman Steve Scalise was shot and seriously wounded by a Bernie Sanders supporter, leftist riots on campuses have stopped speaking appearances by conservatives, and just this weekend, groups of hysterical young people yelled at politicians on Capitol Hill and then raged at the doors of the Supreme Court over the confirmation of Judge Kavanaugh. The Washington Post blames the criticism of left-wing mobs on racism by whites who oppose the changing culture and

demographics due to mass immigration. The reality is that Antifa and other leftist groups are the youth wing of the Democratic Party.

## **Vancouver, Washington: Antifa Is Suspected of Vandalizing and Torching a Truck with Pro-Trump Bumper Stickers**

YOURCOMMENTSHERE

A man in Vancouver, WA, just north of Portland returned to the bar he had left his truck at the night before to find charred remains of what used to be his Nissan Titan. On the previous night, Johnny MacKay opted to take an UBER home rather than take to the roads under the influence. He left his truck in the parking lot, expecting to drive it back the next day. Except some anti-Trump terrorists got it to first, setting it on fire.

A woman who lives across the street captured video of the

truck ablaze at some point during the night.

## **Illegal Immigrant Births Cost Taxpayers \$2.4 Billion Per Year, While the Border Wall Is Put on Hold**

The Center for Immigration Studies reports that there are an estimated 300,000 births by illegal aliens each year that cost to American taxpayers \$2.4 billion! The average cost of a birth is \$12,000, and two-thirds of illegal aliens use taxpayer-funded welfare because they lack insurance. Meanwhile, the government spends less on the Wall to protect our border than the billions that are spent on people who are living in the US illegally.
