

50 College Courses that Prove Universities Are Training Students to Become Socialists

Many major colleges and universities have become indoctrination centers for progressive ideology instead of training young adults for their future careers. A recent poll showed that 49.6% of Millennials and Generation Z would prefer to live in a socialist country, which has enormous implications for the future of our society. Progressives have a stranglehold on higher education in the US, and they are training future generations of leaders to think just like them. The list of classes that teach socialism include Great Political Thinkers: Machiavelli to Marx, Ecofeminism, Global HipHop and Social Justice, Racial Capitalism, Queering the Bible, Queering Childhood and more...

[Authored by Michael Snyder via The End of The American Dream blog.](#)

What in the world are they teaching to our young people?

As you go through the list of college course titles below, I am sure that many of you will be completely shocked. Most parents assume that

they are sending their children to college to get prepared for their future careers, but the truth is that a lot of our major colleges and universities have become little more than indoctrination centers for progressive thought. **Our college students are literally being systematically trained to be socialists, and it is working.**

According to a brand new Harris Poll [that was just released](#), **37.2 percent of all Americans “prefer living in a socialist country”**. But for Millennials and Generation Z combined, that figure is **49.6 percent**.

That means that essentially half of our young adults want to be socialists, and that has enormous implications for the future of our society.

So how did this happen?

Well, the truth is that it really isn't a mystery. Progressives have a stranglehold on higher education in the United States, and they are training future generations of leaders to think just like them.

Young America's Foundation has just released [their yearly report](#) on the craziest college courses in America, and I pulled some examples out of that report that demonstrate how bad things have gotten.

The following are 50 actual college course titles that prove that America's universities are literally training our college students to be socialists...

#1 Harvard University: FRSEMR 620—Who is a Fascist? Culture and Politics on the Radical Right

#2 Princeton University: FRS 139—Marx in the 21st Century

#3 Yale University: AMST 469a—Progressivism: Theory and Practice

#4 University of Alabama: SW 351—Oppression & Social Justice

#5 University of Florida: WST 3349–Ecofeminism

#6 University of Florida: POT 4053–Great Political Thinkers: Machiavelli to Marx

#7 University of Kentucky: SOC 235–Inequalities in Society

#8 University of Missouri: PSYCH 4984–Promoting Social Justice, Diversity, and Inclusion Capstone

#9 Middlebury College: AMST 0269–Beyond Intersectionality: Developing Anti-Racist and Anti-Capitalist Feminisms

#10 Middlebury College: ECON 0405–Economics of Discrimination

The First Non-Binary, 3rd Gender American Says It Was All a Sham

Jamie Shupe, a veteran and the first binary person in the US, categorized as a third gender, has been shunned by the left for speaking out against transgender persons in the military, the transitioning of children and sex change surgery. He said that doctors, judges and activists used him to advance their cause and took advantage of his PTSD. He says that female hormones caused an array of damage including mental problems, bone density loss and kidney problems.

California: Parents Outraged After School District Approves New Sex Ed Program that Teaches 'Gender

Identity' to Pre-Teens

Parents of children attending middle school in Orange County, California are upset over updates to the sexual education curriculum that teaches HIV awareness and prevention, birth control, where students can access abortion centers, 'gender identity' and same-sex relationships to children aged 12 to 13 years old. Parents say the curriculum isn't fit for young impressionable children, and that it encourages the students to experiment with their sexuality.

Parents in Orange County, California are outraged over new updates to a [sexual education curriculum](#) for middle school students that include 'gender identity' and recognizing same-sex relationships – these students are between the ages of 12 and 13 years old.

The Capistrano Unified School District Board of Trustees approved of the new implementation in a 6-1 vote and updated the materials required under California law – the new curriculum will be rolled out in May of this year.

Trustee Jim Reardon, a conservative Republican, was the only one to vote against the new Marxist updates to the sex ed curriculum.

In order to comply with the 2016 California Healthy Youth Act (CHYA),

the Capistrano Unified School District added new updates to the sex ed program which includes information on healthy vs abusive relationships, HIV awareness and prevention, same-sex relationships and instruction on gender identity.

Gender identity instruction will include teaching students about “gender-inclusive” language which advises teachers to use pronouns such as “they” instead of “he or she.”

**Democrat Presidential
Candidate Kamala Harris
Admits Her Goal in 2020 Is to**

Alter “Human Behavior”

Democratic presidential hopeful Senator Kamala Harris, while campaigning, said that she is looking to alter “human behavior” with regard to implementing drastic changes to cut global warming by eliminating fossil fuels. Changing human behavior is the opposite of freedom. Leftists are usually more careful with their language instead of exposing their true totalitarian goals when trying to appeal to voters in a general election. Harris is an original co-sponsor of the Green New Deal is projected to cost up to \$93 trillion.

Patrick Moore, the co-founder of Greenpeace, says that the Green New Deal aims to phase out oil and gas usage over 10 years, which will impact farming and the transportation of food to cities, causing massive starvation and death across the world.

Campaigning in Myrtle Beach, South Carolina over the weekend, Democratic presidential hopeful Senator Kamala Harris (D-CA) made it clear that she is looking to alter “human behavior.”

Harris, a climate alarmist who just signed onto the outrageously expensive and oftentimes incoherent “Green New Deal,” essentially argued that tackling environmental issues means politicians conditioning and controlling their constituents – for their own good, of course.

“It is a fact that we can change human behaviors without much change to our lifestyle and we can save the future generations of our country and this world,” Harris told a crowd of supporters.

“But there has been a failure to do that because this administration, and the people who are apart of it, are in the pocket of big oil and are denying what we know is a reality around greenhouse emissions and what we need to do to curb those,” she continued, bluntly adding: “We need a new President.”

Harris was [mocked](#) online by conservatives for uttering out loud the Left’s true totalitarian leanings. After all, savvy progressives know that such admissions are supposed to only be referenced in coded language.

“The essential premise espoused by Harris is one that has deep roots in the Democrat philosophy. Raising prices and taxes on everything from carbon-based fuel to fattening foods is a hallmark of Democrat legislating and rule-making, from Capitol Hill down to city halls across the country. It is in that sense not a surprising thought for Harris to

have or even share, but it was delivered decidedly more 'on the nose' than such liberal reflexes usually are by politicians hoping to win a popular vote," [argued](#) TheBlaze.

Democrats Pass House Bill to Change the Electorate by Allowing Illegal Aliens, Criminals and 16-Year Old Minors the Vote

House Democrats passed the For the People Act (H.R. 1), a sweeping 700-page voting rights bill that they claimed was intended to make voting easier and remove corruption. The bill includes measures to add a Constitutional amendment to end Citizens United corporate campaign donations, it requires the

disclosure of dark money donors to political campaigns, and it compels big tech companies to disclose the source of political ads on their platforms. However, the bill also includes regulations that would encourage voter fraud such as automatic voter registration through the DMV and colleges, and it prevents the purge of voter rolls that contain the names of dead and inactive voters. The bill aims to restore voting rights to criminals and to lower the voting age to 16. House Democrats also rejected an amendment to prevent illegal aliens and non-citizens from voting in elections. If the bill became law, vote harvesting would be made legal in every state. US Representative Kevin McCarthy (R-CA) claims that this bill would give candidates a government match of 6-1 in taxpayer money for campaigns, so if a citizen gives \$200, the government gives \$1,200.

U.S. House Democrats passed a sweeping anti-corruption and voting rights bill Friday that they said was intended to make voting easier, as well as strengthen ethics rules, while also [rejecting a motion](#) to condemn voting by undocumented immigrants.

The legislation, dubbed the "[For The People Act](#)" or "H.R.1," passed 234-193 along party lines.

The proposal – nearly 700 pages – calls for Election Day to be designated a federal holiday, requires all states to offer automatic voter registration, restores voting rights to convicted felons, institutes independent redistricting commissions to weed out

gerrymandering and requires nonprofit organizations to disclose the names of donors who contribute more than \$10,000 in an effort to rein in dark-money groups. .

“It’s a power grab for the American people,” U.S. Rep. Zoe Lofgren, D-Calif., who leads the House administration committee that shepherded the legislation, according to the New York Times.

FLORIDA: VOTING RIGHTS OF MORE THAN 1 MILLION FELONS RESTORED

The bill also requires the sitting president and vice president to release 10 years of federal tax returns, as well as presidential candidates.

“This bill is a massive federal government takeover that would undermine the integrity of our elections,” House Minority Leader Kevin McCarthy, R-Calif., said Friday, the [Times reported](#).
