

Global Warming Hypocrites: The Pope Calls on People to “Abandon” Fossil Fuels and then Boards a Private Jet to Africa; Prince Harry Uses Private Planes in 6 Out of 10 Flights

Pope Francis has called upon the world to give up fossil fuels, claiming that the climate is in a state of “emergency” and that this has been caused by human activity. Then he got on his papal jet and flew to Africa.

Prince Harry and Meghan have been criticized for using private jets while lecturing the public on the urgency of reducing their carbon footprint. An analysis found that the Duke of Sussex has regularly favored private planes and has used private jets for 6 out of 10 flights since marrying Meghan, despite his claim that he flies commercial 99% of the time.

Francis lectured the world again on global warming junk science on the World Day of Prayer for the Care of Creation. The commie pope lectured humans to get off of fossil fuels and

adopt a simpler lifestyle.

Then he got on his papal jet and flew to Africa.

[Liefesite News](#) reported:

Pope Francis has called upon the world to give up fossil fuels, claiming that the climate is in a state of “emergency” and that this has been caused by human activity.

In his Message for the World Day of Prayer for the Care of Creation, an ecumenical celebration held on September 1, the Argentine pontiff encouraged the world to adopt “simpler lifestyles” and to abandon fossil fuels.

“Now is the time to abandon our dependence on fossil fuels and move, quickly and decisively, towards forms of clean energy and a sustainable and circular economy,” he said.
