

# CNN and NBC Caught Faking Photo of Baby with Measles to Scare people into Accepting Vaccines

written by GEG | December 10, 2019

A stock photo of a healthy baby was photo shopped with measles sores, then shown on air along with the message the anti-vaccination information is dangerous, stoking fear over measles outbreaks, in order to convince the public that forced vaccinations are needed.

## Hospitals Are Suing President Trump Over a New Rule Requiring Them to Publish Their Prices

written by GEG | December 10, 2019

Hospitals hide prices from patients, thus, making it impossible for people to seek less expensive options. Hospitals privately negotiate with insurance companies to set the price of procedures. Trump's mandate simply requires that the hospital disclose the cost of the service before the patient accepts it.
