

YouTube Partners with Government to Censor Videos with Dissenting Views on COVID and Lockdown

written by GEG | May 21, 2020

Youtube, a subsidiary of Google, is censoring doctors and commentators who have dissenting views about COVID-19 and quarantines. Youtube, Vimeo, and other Big Tech companies are no longer operating as private business. They are working closely with government agencies to orchestrate a systematic censorship of videos that express views not approved by those agencies. In essence, they have become partners in this endeavor.
