

# Project Veritas Infiltrates Antifa and Exposes How They Train for Violence

Portland, Oregon: James O'Keefe and Project Veritas filmed a candidate for a Rose City Antifa cell who explained that the group is structured like a business and a Seal-team operation to destroy the enemy. He reveals how they use Black Bloc techniques to conceal their identity and how they train for violence. A second investigative report was released on Antifa at The Base gym in New York that reveals how the group trains in the use of weapons and martial arts. The goal is to do as much physical harm as possible. [Question: Why do American leaders call for martial law to control normal, non-violent citizens but do absolutely nothing to put these enemy soldiers out of commission? Could it be that martial law is what they really want?] -GEG
