

# Andrew Kaufman, MD: The Pandemic Fraud Runs Deeper Than You Think

*Andrew Kaufman, MD, is credentialed in biology, medicine, oncology, and psychiatry. He says there is no scientific evidence to support the existence of a “pandemic” that is being used to frighten and intimidate people. He says he has uncovered an even bigger fraud that applies to all viral illnesses and, if he is right, the germ theory of disease will need to be scrapped and replaced by the terrain theory. Since that would be the end of the vaccine industry, we expect Hell to be unleashed against Dr. Kaufman, not to challenge his theory on the basis of science, but to attack him as a person. Dr. Kaufman will be presenting his findings at G. Edward Griffin’s Red Pill Expo to be held at Jekyll Island, Georgia, October 10 and 11. Information about the Expo at Jekyll Island, Georgia, and about the live stream of the event is available at: <https://redpillexpo.org/> -GEG*
