A Columbia Journalism Review expose revealed that, to control global journalism, Bill Gates steered over \$250 million to major news media outlets, including the *BBC*, *NPR*, *NBC*, *Al Jazeera*, *ProPublica*, *National Journal*, *The Guardian*, *the New York Times*, *Univision*, and many more. Gates also funneled unknown sums, via subgrants, to an army of independent fact checkers, including the *Poynter Institute* and *Gannett*, to “silence detractors” and to “debunk” charges that Gates has championed biometric chips (implanted contraceptive drugs), vaccine identification ‘tattoos’, satellite video surveillance, and COVID vaccines.

Bill Gates bought the media, and during the ‘pandemic’, mainstream news outlets have treated Bill Gates as a public health expert, despite his lack of medical training.

Gates’s media gifts, says CJR author Tim Schwab, mean that “critical reporting about the Gates Foundation is rare.” The Bill and Melinda Gates Foundation declined multiple

interview requests from CJR and refused to disclose how much money it has funneled to journalists.
