

# Robert Kiyosaki: Last Call for Reality – Dreamers Will Not Do Well

Robert Kiyosaki, Author of *Rich Dad, Poor Dad* and contrarian investor with a bent for real estate and gold, previews his upcoming presentation at Red Pill Expo on Jekyll Island, Georgia, October 10-11. His message is what one might call 'tough love for humanity'. The next twelve months may be your last chance to take the red pill for understanding what is really happening to the economy, why it is happening, and what you absolutely must do if you hope to survive the biggest crash-and-reset in the history of mankind.
