

# Does Canada Have a Secret COVID-19 Quarantine Camp in Manitoba?

written by GEG | November 11, 2020

Rebel Media reported that Canadian Prime Minister Justin Trudeau put out a request for information (RFI) asking how camps maybe set up for a health crisis in dealing with the 'pandemic'. The RFI also stated that people can be added to the roster of the camps' clientele for any other requirement of the federal government. According to a spokesperson, people would be referred by the provincial government to this particular site.

The camp shown in the video was reported to be run by the Manitoba Metis Federation, which is a lobbying organization for the Metis Indian population in Canada.
