

Small Investors from Reddit Push Wall Street Hedge Funds to Brink of Bankruptcy by Beating Them at Their Own Game

written by GEG | January 28, 2021

Users of Reddit, many with modest trading accounts, realized that, if they all bought the shares as fast as hedge funds were shorting and dumping them, they could cause the price to go up, and turn the tables on the attack on GameStop and, temporarily, at least, make a profit and cause a "short squeeze."
