

Solutions Watch: Freedom Cells and the “Greater Reset” to Counter Globalism

written by GEG | January 14, 2021

James Corbett has launched a new series called Solutions Watch, and his first guest is John Bush, who created the Freedom Cell Network in 2014 for like-minded solutions-oriented freedom lovers to meet, organize, and collaborate. Bush is now co-organizing The Greater Reset Activation to counter the World Economic Forum’s Great Reset initiative. He is co-organizing a 5-day event with many expert speakers focusing on practical steps toward personal liberty and decentralization. It will be live-streamed for free, January 25th – 29th, 2021. -GEG
