

# Ben Stein Suffers Severe Side Effects from COVID Vaccine Days After Getting the Shot

written by GEG | March 8, 2021

Ben Stein is a writer, lawyer, actor, comedian, game show host, and commentator on political and economic issues and began his career as a speechwriter for US presidents Richard Nixon and Gerald Ford. He posted a warning after he suffered severe side effects from the second 'booster' dose shot of the Moderna RNA Covid vaccine. He said, "I had the COVID booster by Moderno four or five days ago and I am still feeling wild side effects from it like I have the worst flu in the world, extreme shortness of breath, dizziness, fatigue, extreme irrational thinking. And it has just been devastating."

American writer, lawyer, actor and comedian **Ben Stein** posted video this week warning Americans about the side-effects of the Moderna COVID vaccine booster shot.

According to Stein he was horrible sick for days following the injection.

*Ben Stein: I had the COVID booster by Moderno four or five days ago and I am still feeling wild side effects from it like I have the worst flu in the world, extreme shortness of breath, dizziness, fatigue, extreme irrational thinking. And it has just been devastating.*

The video is posted on **Banned.video** because we all know the tech giants will not approve of anti-vaccine testimonials.
