

Proof that the World Health Organization Relabeled Flu Cases as Covid-19 to Invent the Pandemic

written by GEG | April 5, 2021

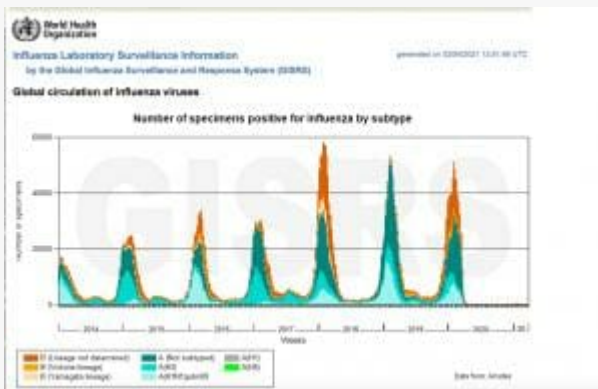

Brian from High Impact Flix shows how to use a chart from the World Health Organization to prove to your friends that there are ZERO cases of the flu reported for the year 2020. Obviously, influenza has been re-designated as Covid-19, which was admitted by Illinois Department of Public Health Director Dr. Ngozi Ezike. One year ago, she said, "If you were in hospice and had already been given only a few weeks to live, and then you also were found to have COVID, that would be counted as a COVID death.... Even if you died of a clear alternate cause but had COVID at the same time, it's still listed as a COVID death. So, everyone who's listed as a COVID death doesn't mean that was the cause of death, but they had COVID at the time of the death." White House Coronavirus Task Force coordinator Deborah Birx also confirmed on video that COVID-19 cases are being miscategorized when she said, "...if someone dies *with* COVID-19, we are counting that as a COVID-19 death." [We expect that, after this chart becomes widely circulated, the WHO suddenly will plug some fictitious numbers into the chart to coverup the crime.] -GEG Click this link for short video to learn how to access the chart from the World health Organization:

World Health Organization – notice that there is ZERO data for influenza for 2020

Illinois Department of Public Health Director Dr. Ngozi Ezike said, said, “If you were in hospice and had already been given only a few weeks to live, and then you also were found to have COVID, that would be counted as a COVID death.... Even if you died of a clear alternate cause but had COVID at the same time, it’s still listed as a COVID death. So, everyone who’s listed as a COVID death doesn’t mean that was the cause of death, but they had COVID at the time of the death.”

White House Coronavirus Task Force coordinator Deborah Birx also confirmed on video that COVID-19 cases are being miscategorized when she said, “...if someone dies *with* COVID-19, we are counting that as a COVID-19 death.”
