

'COVID Vaccine Secrets' Is an Excellent Video to Share with People who Are Considering Taking COVID-19 Vaccines

This video from Children's Health Defense cuts through propaganda for people considering taking COVID vaccines. The video exposes all of the major problems with the vaccine that include: COVID vaccines are not vaccines, they are experimental injections, they were rushed through clinical trials, safety testing was skipped, there is a long list of side effects, people are dying from the vaccines, the injections are not effective in preventing COVID or stopping its transmission, drug companies have immunity from being sued, safe treatments exist, COVID PCR tests are useless, COVID case and death counts have been wildly inflated, and the long-term consequences of taking COVID vaccines is unknown. Once someone takes the mRNA COVID vaccine, it is permanent.

The Children's Health Defense provides a resource guide to substantiate their statements with evidence.
