written by GEG | October 5, 2021

Radicalized immigrant youths followed Kyrsten Sinema Sunday from as she left her teaching classroom at Arizona State University and entered into the restroom. They boxed her in the stall and filmed her as they pressured her to vote in favor of the \$2.3-trillion infrastructure 'Build Back Better' bill that provides a path to citizenship for migrants living in the US. The activists are affiliated with LUCHA, which is listed as a partner of the Center for Popular Democracy, funded with millions of dollars every year by George Soros's Open Society Foundation. Sinema opposes a \$3.5-trillion budget. **The activists** are now being probed by authorities in Arizona and could be hit with over 2 years in jail due to the crime of filming someone in a bathroom without their consent being a class 5 felony. -GEG
