

Military, Federal Employees and Contractors File Class-Action Lawsuit against Pentagon over Vaccine Mandates

written by GEG | October 19, 2021

Two dozen military members, including Navy Seals, Green Berets and high-ranking officers, along with federal employees and federal civil contractors, have filed a class-action lawsuit against the Department of Defense over Biden's vaccine mandate. The Liberty Council, a Christian legal firm, filed the suit on behalf of the 24 plaintiffs who oppose the vaccines due to religious beliefs and have been denied exemption or accommodation for their beliefs. The lawsuit argues that the mandate violates the First Amendment freedom of religion, that the vaccines were developed using aborted fetal cells, and that the mandate is unenforceable because it has only been issued an Emergency Use Authorization. The FDA approved Comirnaty, which is not available in the US.

Service members from all five branches of the U.S. military, federal employees, and federal civilian contractors have joined in a class-action **lawsuit** against the Department of Defense over its COVID-19 vaccine mandates.

The 24 plaintiffs “face a deadline under the Federal COVID-19 Vaccine Mandate to receive a COVID-19 vaccine that violates their sincerely held religious beliefs, and have been refused any religious exemption or accommodation,” according to Liberty Counsel, the Christian legal firm that filed the lawsuit.

The lawsuit (**pdf**), filed in the U.S. District Court for the Middle District of Florida, lists President Joe Biden, Secretary of Defense Lloyd Austin, and Homeland Security Secretary Alejandro Mayorkas as defendants.

The plaintiffs are asking the court to issue a temporary restraining order (**pdf**) to prevent the COVID-19 vaccine mandates from taking effect, and ultimately issue an injunction to prevent the **Pentagon** from enforcing the Biden administration’s COVID-19 vaccine mandates.

Biden on **Sept. 9** issued an **executive order** requiring almost all federal employees to get a COVID-19 vaccine as a condition of employment. Regular testing isn’t an option. Civilian federal employees and contractors have until Nov. 22 to be fully vaccinated.

Austin issued a memorandum on Aug. 24 saying that all military service members must receive a COVID-19 vaccine, after which all the branches of the military **announced various deadlines** for its troops to be fully vaccinated, regardless of whether they had previously survived a bout of COVID-19, and threatening suspensions or other disciplinary actions if service members don’t have a pending exemption request or fail to comply.
