

January 6 Anniversary: AG Garland Vows to Go After More Protesters at the Capitol, Ignores Leftist Criminals

written by GEG | January 6, 2022

Attorney General Merrick Garland announced that the Department of Justice will continue to arrest people who were present at the January 6 event at the Capitol. Tucker Carlson pointed out that AG Garland failed to mention actual criminals, such as the pipe bomber who was using a phone, which is traceable. Ray Epps, who encouraged riots and crime on video, was taken off of the FBI list.

On January 5th, a still unidentified suspect planted two pipe bombs at the RNC and DNC DC Headquarters in Washington DC the night before the massive January 6th rally at the Ellipse in Washington DC. The FBI offered a reward of \$50,000 for information on the individual who planted pipe bombs. Months after January 6 protests, **it was learned** that the US Congress was evacuated on January 6th due to a pipe bomb threat – It was not because of the pro-Trump protesters.

Republican Senator Ted Cruz described January 6th as a violent terrorist attack.

Meanwhile, the Associated Press has **declared**, via its 'fact checkers', that the mistreatment of hundreds of people still in prison for being involved in the January 6th Capitol incident is a 'conspiracy theory' even though some of the prisoners have been tortured and many have been held in solitary confinement.

The Gateway Pundit published a list of 20 provocateurs and other suspicious people at the Capitol on January 6 who are connected with Antifa or other far-left groups that are not being investigated.
