

# Valencia, Spain: Police Officers Announce, “We Are with the People, Not with Corrupt Politicians”

written by GEG | January 20, 2022

Valencia police have proclaimed, “We promised to protect and serve the people not the corrupt politicians. We feel very proud to be police but *real* police, not hit men of the government. Our association is in direct contact with members of security forces in Italy, Portugal, France, Austria, Switzerland, Sweden, Germany, and Holland. We’re going to join together all of the police of Europe. We’re going to stop this. The security forces and the armed forces are the key to all of this. We have to put ourselves on the side of the people, and turn our backs on the corrupt governments!...”

“We promised to protect and serve the people not the corrupt politicians. We feel very

proud to be police but *real* police, not hit men of the government. Our association is in direct contact with members of security forces in Italy, Portugal, France, Austria, Switzerland, Sweden, Germany, and Holland. We're going to join together all of the police of Europe. We're going to stop this. The security forces and the armed forces are the key to all of this. We have to put ourselves on the side of the people, and turn our backs on the corrupt governments! We have denounced the Covid passport here in Valencia with our association. We're going to demand responsibility from Señor Marlasca for the two states of emergency, and for using the police and the guardia civil to coerce the citizens. We don't support that."

This seems to be a critical development, and one we will keep close tabs on.
