

Dr. Birx Admits She Knew the Dangerous mRNA Vaccines Would Not Work – Half of the People Who Died Were Vaccinated

Former White House COVID response coordinator Dr. Deborah said that she “knew” that COVID-19 vaccines “were not going to protect against infection” yet she pushed them anyway. She said, “But let’s be very clear: 50% of the people who died from the Omicron surge were older, vaccinated.” Birx, along with Dr Fauci, are responsible for pushing completely fraudulent models to persuade President Trump to shut down the economy. Dr. Fauci and Dr. Birx pushed a garbage model from the Imperial College that predicted that 2.2 million Americans would die from COVID on the White House and the American public and destroyed the US economy.

Dr. Deborah Birx: “I knew these vaccines were not going to protect against infection. And I think we overplayed the vaccines, and it made people then worry that it’s not going to protect against severe disease and hospitalization. It will. But let’s be very clear: 50% of the people who died from the Omicron surge were older, vaccinated. So that’s why I’m saying even if you’re vaccinated and boosted, if you’re unvaccinated right now, the key is testing and Paxlovid. It’s effective. It’s a great antiviral. And really, that is what’s going to save your lives right now if you’re over 70, which if you look at the hospitalizations, hospitalizations are rising steadily with new admissions, particularly in those over 70.”

This comes after Birx admitted that she knowingly lied to the President of the United States into locking down the US economy and forcing millions of Americans to lose their jobs.
