

# Gov. DeSantis Sends 50 Migrants to Prestigious Martha's Vineyard Island in Massachusetts

written by GEG | September 16, 2022

Florida Governor Ron DeSantis sent two planes carrying 50 illegal aliens to Martha's Vineyard, where the Obamas own a home. Martha's Vineyard boasted, "We stand with immigrants, with refugees... All are welcome here. Hate has no business here." Martha's Vineyard Homeless Shelter Coordinator Lisa Belcastro said that the illegal migrants will "have to move from here to somewhere else" because there is a shortage of housing on the island, despite the island hosting thousands of tourists every summer. DeSantis said that the virtue signaling on the left is a fraud. An estimated 4.2 million illegal immigrants have crossed into the US in 19 months, yet the Biden administration insists the US has a "secure border."

Democrat California Governor Gavin Newsom, a potential 2024 presidential candidate, called on the Biden Department of Justice for a federal investigation of the two flights of 50 migrants across state lines to Martha's Vineyard for kidnapping, RICO and civil rights charges. However, the illegal migrants reportedly signed waivers.

On Wednesday, Republican Florida Governor Ron DeSantis sent two planes carrying illegal immigrants to the island of Martha's Vineyard.

Earlier on Thursday, Governor DeSantis addressed the media after transporting two planeloads of immigrants to Martha's Vineyard.

During the press conference, he criticized the left saying "their virtue signaling is a fraud."

"We are not a sanctuary state, and it's better to be able to go to a sanctuary

jurisdiction, and, yes, we will help facilitate that transport for you to be able to go to greener pastures,” DeSantis said.

“Biden would fly people in the middle of the night, dumped them all across this country. There was no warning on any of this.”

“The minute even a small fraction of what those border towns deal with every day is brought to their front door, [Democrats] all of a sudden go berserk and they’re so upset this is happening. It just shows you their virtue signaling is a fraud,” he added.

*In Florida, we take what is happening at the southern border seriously.*
