The Green New Deal (GND) proclamation was crafted over a December weekend by Alexandria Ocasio-Cortez along with three groups: the Sunrise Movement, a grassroots climate organization; the Justice Democrats, which recruits and supports progressive candidates; and a policy shop called the New Consensus. The Sunrise Movement, the chief lobbyists of the GND to the Democratic Party, has an “army of young people” seeking to “make climate change an urgent priority across America.” Sunrise has a complex web of donors that include the Rockefeller Family Fund and other non-profit partners including the Center for Popular Democracy, the the Sierra Club, Greenpeace and many more organizations that are financed by billionaire George Soros.

**The Green New Deal blueprint introduced by Rep. Alexandria Ocasio-Cortez was crafted by three far-left organizations and is being**

**pushed by a coalition of well-funded professional progressive groups and known leftist agitators.**

Some of the organizations helping to promote the Green New Deal have ties to financing from billionaire George Soros and trace their roots to such radical groups as Occupy Wall Street and Black Lives Matter.

Earlier this month, Ocasio-Cortez posted an 11-page Google document in the form of a nonbinding legislative resolution that has become the most authoritative [version](#) of the Green New Deal, a broad outline for the current conception of the socialist-style plan.

Ocasio-Cortez's Green New Deal resolution, introduced along with Sen.

Ed Markey (D-MA), has already been endorsed by more than 45 Democratic

representatives. The deal received high-profile endorsements from

Senators Elizabeth Warren, Cory Booker and Bernie Sanders.

The Green New Deal seeks, as the *New Yorker* [recently](#) put it, "nothing less than a total overhaul of our national infrastructure."

The utopian deal demands 100 percent of all buildings in the U.S.

convert to clean energy, calls for the removal of all

greenhouse gases  
from the entire atmosphere, and includes such non-“green”  
clauses as a  
federal jobs guarantee while protecting the right of all  
workers to  
organize and unionize.

It also pledges “affordable, safe and adequate housing” for  
“all people of the United States.”

The wealth-spreading deal aims to “virtually eliminate poverty  
in the  
United States and to make prosperity, wealth and economic  
security  
available to everyone participating in the transformation.”

Radical groups, Soros ties

The Green New Deal was crafted by Ocasio-Cortez along with  
three  
groups – the Sunrise Movement, Justice Democrats and a group  
calling  
itself New Consensus.

*The New Yorker* [reported](#):

*The document was written over a single December weekend  
by the staff of the freshman representative Alexandria  
Ocasio-Cortez and  
three like-minded progressive groups, none of which existed  
two years*

*ago: the Sunrise Movement, a grassroots climate organization;  
the  
Justice Democrats, which recruits and supports progressive  
candidates;  
and an upstart policy shop called the New Consensus.*

Besides helping to write the deal text, the Sunrise Movement has been the central progressive organization lobbying the Democratic Party to implement the Green New Deal.

Sunrise [markets](#) itself as an “army of young people” seeking to “make climate change an urgent priority across America, end the corrupting influence of fossil fuel executives on our politics, and elect leaders who stand up for the health and wellbeing of all people.”

# California and 15 Other States Are Suing Trump Over His Border Wall Emergency Declaration

Sixteen states, led by California, sued President Trump over his declaration of a national emergency and his plans to redirect federal funds to the construction of a border wall. The other states include Colorado, Connecticut, Delaware, Hawaii, Illinois, Maine, Maryland, Michigan, Minnesota, Nevada, New Jersey, New Mexico, New York, Oregon and Virginia, all of which have Democratic attorneys general and all but one of which are led by Democratic governors. The lawsuit claims that Trump manufactured a “crisis” in order to obtain funding for a wall, and that there is no national emergency at the southern border. The complaint also alleges that a wall will cause environmental damage. Trump expects to lose the legal challenge in California and in the liberal Ninth Circuit, but to later prevail at the Supreme Court, where conservatives hold a 5-4 majority.

**The State of California and fifteen other states sued President Donald Trump on Monday over his declaration Friday of a national emergency and his plans to redirect federal funds to the construction of a wall on the southern border.**

The lawsuit, [as expected](#), was filed by California Attorney General Xavier Becerra, and

was joined  
by attorneys general from “Colorado, Connecticut, Delaware,  
Hawaii,  
Illinois, Maine, Maryland, Michigan, Minnesota, Nevada, New  
Jersey, New  
Mexico, New York, Oregon and Virginia – all of which have  
Democratic  
attorneys general and all but one of which are led by  
Democratic  
governors,” the *Wall Street Journal* [noted](#) Monday.

However, ten of the 26 Democrat attorneys general have not  
joined the lawsuit – at least not yet, as of Tuesday.

The [complaint](#),  
filed in federal court in the Northern District of California,  
decries  
what it calls “President Donald J. Trump’s flagrant disregard  
of  
fundamental separation of powers principles engrained in the  
United  
States Constitution.” It adds:

*Contrary to the will of Congress, the President has used  
the pretext of a manufactured “crisis” of unlawful  
immigration to  
declare a national emergency and redirect federal dollars  
appropriated  
for drug interdiction, military construction, and law  
enforcement  
initiatives toward building a wall on the United States-  
Mexico border.*

*This includes the diversion of funding that each of the Plaintiff States receive.*

The complaint continues through several familiar talking points from the Democratic Party:

*The federal government's own data prove there is no national emergency at the southern border that warrants construction of a wall. Customs and Border Protection ("CBP") data show that unlawful entries are near 45-year lows. The State Department recognizes there is a lack of credible evidence that terrorists are using the southern border to enter the United States. Federal data confirm that immigrants are less likely to commit crimes than are native-born Americans. CBP data demonstrate that dangerous drugs are much more likely to be smuggled through, not between, official ports of entry—rendering a border wall ineffectual at preventing their entry into this country.*

Later in the complaint, the states claim that the border wall is not only unnecessary, but that it will also cause environmental damage. The complaint also claims a border barrier will not block "drug smuggling

corridors.”

## **Agenda 21 Alert! Mayor Eric Garcetti Declares Green New Deal in Los Angeles, City to Turn Off the Lights**

Agenda 21 is the United Nations strategy to fight global warming at the local level while Agenda 2030 is the UN strategy for fighting climate change at the national and international levels. The introduction of the Green New Deal (GND) is a major attempt at implementing Agenda 2030 in the United States. Commentator Gary Gileno says that Alexandria Ocasio-Cortez, a young attractive millennial, was placed in office to sell the GND to other millennials. The GND is the implementation of 'sustainability' across America that is artificial scarcity under the guise of conservation, it is a behavioral modification scheme under social engineering and at its core, it is a system of rationing, with less food, water, energy, mobility, choice, freedom, and space.

Los Angeles Mayor Eric Garcetti, in support of the Green New Deal, announced that Los Angeles will abandon plans to rebuild three natural gas plants, despite concerns the city will suffer acute power shortages. He is enacting Agenda 2030, where people will live in the dark and under water rationing, in addition to the termination of travel by cars and planes. Population control is the goal.

## **Ocasio-Cortez Advisor Admits Green New Deal Promises Government Checks for Those Who Are Unwilling to Work**

Last week, Cornell University law professor, Robert Hockett, who counsels Alexandria Ocasio-Cortez (OAC) on environmental initiatives, admitted that he falsely told Tucker Carlson that the her New Green Deal did not include a provision to subsidize people who are “unwilling” to work. OAC's support staff admitted to sending a fact sheet to NPR that stated that the program will provide “Economic security for all who are unable or unwilling to work.” On Monday, Tucker Carlson reported that the official Green New Deal resolution does, in

fact, guarantee “economic security for all people of the United States.” The resolution also calls for free education and rebuilding all the existing buildings in the country. The Congressional resolution is linked below.

**Democrats for Open Borders Aim to Abolish Immigration and Customs (ICE) by Capping Number of Criminal Detainees**

Democrats are pushing cap the number of Immigration and Customs Enforcement (ICE) detainees down to 16,500 illegal aliens who have committed additional crimes, which will result in thousands being released into American neighborhoods. Former Border Patrol Chief, Mark Morgan, said that Democrats aim to abolish ICE by reducing funding for the agency by reducing bed space for detainees and to limit ICE law enforcement in the interior of the US. Last year ICE arrested over 120,000 illegal aliens for additional crimes beyond unlawfully crossing the border. Suspending the rule of law for a large group of people charged with crimes will create a sanctuary country. Morgan says Democrats' ultimate goal is open borders.

## **Here Are the Most Shocking Proposals from Alexandria Ocasio-Cortez' "Green New Deal"**

Democrat Representative, Alexandria Ocasio-Cortez, released a summary of her "Green New Deal" which envisions "a massive transformation of our society" that includes: rebuilding every home and commercial structure in the US for energy efficiency,

ending all traditional forms of energy in the next 10 years, including nuclear energy, within 10 years, building trains across oceans to put an end to air travel, and unionizing all new jobs! She suggests that the Federal Reserve and banks could fund these projects by extending more credit. -GEG

[Authored by Michael Palicz via Americans for Tax Reform](#)

This morning, Rep. Alexandria Ocasio-Cortez released an overview of her “Green New Deal” which threatens “a massive transformation of our society.”

*Below are the details of the proposal:*

- Rebuild every single building in the U.S.

“Upgrade or replace every building in US for state-of-the-art energy efficiency.”

- Will end all traditional forms of energy in the next ten years.

The Green New Deal is “a 10-year plan to mobilize every aspect of American society at a scale not seen since World War 2 to achieve net-zero greenhouse gas emissions.”

- Plans to ban nuclear energy within 10 years if possible.

“It’s unclear if we will be able to decommission every nuclear plant within 10 years, but the plan is to transition off of nuclear and all fossil fuels as soon as possible.”

- Build trains across oceans and end all air travel!

“Build out highspeed rail at a scale where air travel stops becoming necessary”.

- Don’t invest in new technology of Carbon Capture and Storage, just plant trees instead!

“We believe the right way to capture carbon is to plant trees and restore our natural ecosystems. CCUS technology to date has not proven effective.”

- Mandates all new jobs be unionized.

“Ensure that all GND jobs are union jobs that pay prevailing wages and hire local.”

- May include a carbon tax.

“We’re not ruling a carbon tax out, but a carbon tax would be

a tiny part of a Green New Deal.”

- May include cap and trade.

“...Cap and trade may be a tiny part of the larger Green New Deal plan.”

- How much will it cost?

No estimate of the total cost of implementing the Green New Deal is offered by Ocasio-Cortez.

However, as Ocasio-Cortez admits, “even if every billionaire and company came together and were willing to pour all the resources at their disposal into this investment, the aggregate value of the investments they could make would not be sufficient.”

She does provide one estimate that the cost to “repair and upgrade infrastructure U.S. infrastructure” alone will cost “\$4.6 trillion at minimum.”

- How will it be paid for? Don’t worry about that.

Ocasio-Cortez doesn’t provide any insight into how the

trillions

of dollars in spending will be paid for other than claiming,  
“The

Federal Reserve can extend credit to power these projects and  
investments and new public banks can be created to extend  
credit”. But

as Ocasio-Cortez says, “the question isn’t how will we pay for  
it, but

what will we do with our new shared prosperity”.

A car from the new Muslim Community Patrol has been spotted around the city, joining the Jewish enclave's Shomrim and the Brooklyn Asian Safety Patrol among New York's culture-specific security groups.

The white Ford Taurus bears insignia nearly identical to those of an NYPD patrol car – with blue horizontal stripes down the sides, a shield on the front driver's side door and the words "Muslim Community Patrol" descending on the rear door, where a department vehicle would say "Courtesy Professionalism Respect."

# Central America to US Has Grown to 12,000 People

A new migrant caravan from Central America reportedly has grown to 12,000 people. The caravan is headed toward Mexico's southern border, and Mexican officials are processing 'humanitarian' visas to allow the migrants to travel legally. Although the Mexican government is inviting members of the caravan to remain in Mexico to work, there is little doubt that the motivation for most migrants is to reach the welfare paradise called the United States. -GEG

**The ranks of a new Central American migrant caravan reportedly grew in size to more than 12,000 as of Friday. The caravan is now heading to Mexico's southern border.**

Mexican immigration officials in the city of Ciudad Hidalgo, which borders Guatemala, are establishing procedures to expedite the process in which to approve one-year humanitarian visas for members of the Central American migrant caravan who are arriving daily. The one-year humanitarian visas, promised by Mexico's new President Andrés Manuel López Obrador, is a newly adopted policy which allows migrants to legally travel and work during their stay in Mexico.

The new policy of handing out humanitarian visas began on January 17 in response to the new caravan of primarily Honduran migrants who left their home country and headed towards the Mexican border on January 15. Officials originally estimated the caravan's size at about 2,000. Mexico now claims the caravan's population swelled to over 12,000 migrants, [according to](#) local media and Breitbart Texas sources.

## **58,000 Non-Citizens Illegally Voted in Texas State Elections**

The Texas Department of Public Safety reported that 95,000 non-citizens are illegally registered to vote in Texas, and 58,000 of them voted in at least one Texas election since

1996. Non-citizens who are lawfully residing in Texas may obtain drivers licenses, but only citizens are entitled to vote. Texas law currently does not require verification of a voter's statement that they are a citizen. Texas Governor Greg Abbott supports prosecution of these crimes and wants legislation to safeguard against this type of vote fraud in the future. -GEG

According to Texas Attorney General Ken Paxton's office, the Texas Department of Public Safety has identified 58,000 non-US citizens who have voted in at least one Texas election since 1996, reports [NBCDFW](#).

What's more, 95,000 non-citizens are registered to vote in Texas according to the DPS.

"Texas law allows lawfully present noncitizens to obtain driver's licenses by showing proof of lawful presence to DPS," said Paxton's office in a statement. "However, only citizens are eligible to vote. And Texas law currently does not require verification of a voter's statement that they are a citizen."

*The Texas Secretary of State this week provided the information to Paxton's office, which can prosecute election crimes.*

*"Every single instance of illegal voting threatens democracy in our state and deprives individual Texans of their voice," Paxton said in a statement. "My Election Fraud Unit stands*

ready to investigate and prosecute crimes against the democratic process when needed.”

Republican Gov. Greg Abbott praised the findings, which officials said were the result of voter rolls being checked against a state database of Texas residents who are not citizens but leally obtained driver’s licenses.

“I support prosecution where appropriate. The State will work on legislation to safeguard against these illegal practices,” Abbott tweeted. –[NBCDFW](#)

The Texas Secretary of State’s office is “very confident” that the information they received is current, according to spokesman Sam Taylor – however a voting rights group immediately questioned its accuracy.

Democratic lawmakers in the Lone Star State have urged caution “because we have consistently seen Texas politicians conjure the specter of voter fraud as pretext to suppress legitimate votes, we are naturally skeptical,” according to Dallas state Rep. Rafael Anchia.

Paxton mentioned three recent voter fraud convictions in his statement, adding “Nothing is more vital to preserving our Constitution than the integrity of our voting process, and my office

will do everything within its abilities to solidify trust in every election in the state of Texas. I applaud Secretary of State Whitley for his proactive work in safeguarding our elections.”
