## Germany to Abandon Climate Goal – After Merkel Criticized Trump for Doing Same

written by GEG | February 3, 2022

Germany will abandon its 2020 national global-warming goal of cutting carbon dioxide emissions 40% below 1990 levels. This is part of a deal to form a new coalition government. It's a major embarrassment to Chancellor Angela Merkel who criticized Trump for withdrawing from the Paris Treaty. University of Colorado professor, Roger Pielke,

says that Germany's climate goals were mathematically impossible.
