## 23 Americans Tested Positive for Flu Last Week Compared to 14,657 Reported Last Year at Same Time

written by GEG | January 18, 2022

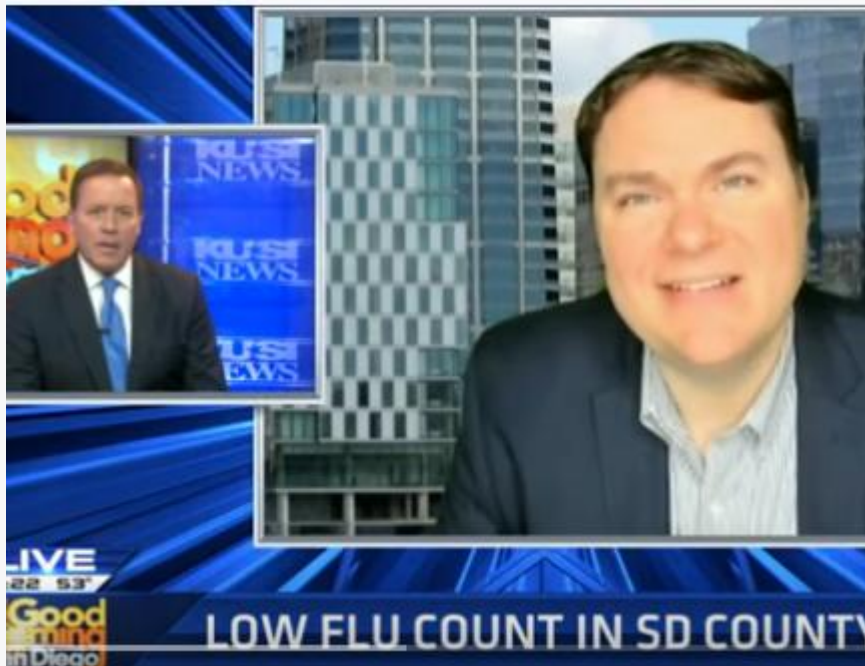

During the second week of January, only 23 people tested positive for the flu in the US compared with 14,657 people who tested positive during the same time last year. The total number of general deaths did not change significantly, which is evidence that flu cases are under reported and Covid cases are over reported.

## The 2020 Seasonal Flu Has Dropped by 98% Worldwide as It Is Re-labeled Covid-19

written by GEG | January 18, 2022

San Diego County gets over 17,000 cases of influenza each year, but this year only 36 cases of the flu have been reported. It is clear from this that the common seasonal flu merely is being called Covid-19. The fraudulent increase in Covid 'cases' has led to mass hysteria, lockdowns, masks, and economic collapse.

# The Fraud Behind the COVID-19 Theater is Exposed by the CDC Itself

written by GEG | January 18, 2022

The CDC admits in a paper that was updated on December 1st, that it has failed to obtain an isolated virus, which shows that the virus is a hoax! The statement that no 'quantified', or measured viruses were available means that the CDC has no virus. There is no virus. [Repeat this until it sinks in: There is no virus.]
