

Tom Brady, Larry David and Other Celebs Face Class Action Lawsuit over FTX Endorsements

written by GEG | November 9, 2023

Investors who lost money are pursuing a class action lawsuit against celebrities who were involved in marketing campaigns for FTX, including Tom Brady, his ex-wife Gisele, comedian Larry David, Shaquille O'Neal, NBA legend Steph Curry and tennis star Naomi Osaka.

Sam Bankman-Fried Convicted in Fraud and Conspiracy Trial, Faces 110 Years in Prison

written by GEG | November 9, 2023

Bankman-Fried personally gave \$40 million to politicians and political-action committees ahead of the 2022 midterm elections, mostly to Democrats and liberal-leaning groups. Ryan Salame, another top FTX executive, donated more than \$23 million, mainly to Republicans and conservative groups.

South Dakota Gov. Kristi Noem Vetoed Bill to Implement Central Bank Digital Currency (CBDC) in Her State

written by GEG | November 9, 2023

South Dakota Governor Kristi Noem vetoed a bill passed by the Republican legislature that would have created a path for central bank digital currency (CBDC), which Tucker Carlson pointed out is not currency, but is software. He also explained how CBDC can be used as a tool for control.

Choke Point 2.0: Biden, Democrats, the Fed and the DOJ Are Cracking Down on Cryptocurrency

written by GEG | November 9, 2023

Choke Point 2.0 targets cryptocurrency (crypto) as regulators are cracking down on banks taking deposits from crypto clients. Cryptocurrencies may trade against CBDCs in the future, which could allow those in power to take control of the industry.

FTX Crypto Exchange Company Goes Bust, Founder who Bankrolled Democrats Loses Billions

written by GEG | November 9, 2023

Sources reported that FTX founder Sam Bankman-Fried transferred \$4 billion from his FTX crypto exchange to Alameda, his crypto trading firm, earlier in 2022 without telling anyone. Losses related to FTX spread beyond the firm itself and to stocks tied to cryptocurrencies.

Cryptocurrencies Crash and Bitcoin Has Lost 70% of Its Value Since November

written by GEG | November 9, 2023

Bitcoin has dipped below \$21,000 and its price is down nearly 70% from its all-time high of \$69,000 last November. The immediate trigger for the crypto crash appears to be a massive sell-off by investors panicked by inflation of food, gas and energy prices as a recession looms.

Coinbase Crypto Exchange Is Warning Bankruptcy Could Wipe Out User Funds

written by GEG | November 9, 2023

In the event Coinbase goes bankrupt, it says its users would be considered to be “general unsecured creditors” and might lose all the cryptocurrency in their accounts if it is stored in a wallet controlled by the exchange company.

Trudeau Gov’t Invokes ‘Terrorism’ Laws To Seize Bank Accounts & Crypto from Freedom Convoy Supporters

written by GEG | November 9, 2023

Under martial law, the government may now seize the bank accounts of its critics. Going forward, Justin Trudeau will regulate all crowd funding and cryptocurrency under the Terrorist Financing Act. The Canadian government now considers donating to a civil rights movement a form of terrorism.

Kazakh Government Resigns, Shuts Down Internet amid Protests, Causes Bitcoin to Tumble

written by GEG | November 9, 2023

Kazakhstan accounts for 18% of the Bitcoin network's hash mining activity. No timeline exists as to when the internet will switch back on in the second-biggest Bitcoin mining country in the world.

China Declares Virtual-Currency Transactions Illegal, Sends Crypto Prices Tumbling

written by GEG | November 9, 2023

China has tried to ban cryptocurrencies before, ordering third-party payment providers to stop using bitcoin, banning token sales and crypto exchanges, and outlawing mining, but it has failed. China is aggressively clearing the runway for its own central bank digital currency that tracks all transactions.

1,500 Businesses Infected by Latest Ransomware Cyber Attacks

written by GEG | November 9, 2023

REvil's site on the dark web claimed that more than 1 million targets were infected in the attack and that the group was demanding \$70 million for a universal decryptor. The hackers demanded the ransom in Bitcoin, which has been used by authorities to call for an end to private cryptocurrencies.

John McAfee Found Dead. He Previously Tweeted: 'If I Suicide Myself, I Didn't. I Was Whackd.'

written by GEG | November 9, 2023

John McAfee, former presidential candidate and founder of McAfee Associates, was found hanged to death in his prison cell in Spain. Authorities claim it was a suicide. Hours before he was found dead, Spain had approved the United States' request to extradite him for criminal tax evasion charges. In 2019, McAfee tweeted that he would not kill himself and got a tattoo of an image that says \$WHACKD that was connected to a cryptocurrency token that McAfee was selling at the time. Another tweet from 2020, after he was arrested and imprisoned in Spain, declared that he would not hang himself a la Epstein. McAfee was accused of killing his neighbor in Belize in 2012.
