

# Washington State Pledges to End Sale of Gasoline Powered Cars by 2030

written by GEG | April 3, 2022

During international climate talks, six car manufacturers, including Ford, Mercedes-Benz, General Motors and Volvo, and 30 countries pledged to stop sales of petrol engine cars by 2040. The federal government is pushing for for 50% of new vehicles to be electric by 2030.

## Whistleblower Reveals That A UN-Planned Invasion By Refugees Into The US Is Already Underway

written by GEG | April 3, 2022

US: A Missouri woman is interviewed by radio-show host, Josh Tolley, and tells how she became involved in her state's refugee-immigration program. The goal is to create chaos and lay the foundation for breaking the US into smaller political units with equal UN representation – and the end of America as a sovereign nation.
